PRODUCT FEATURES

WINTER_2026-27

HAND OUT TECHNOLOGY

The Ripper Zipper provides a level of functional freedom that will change your whole program. Rip it open to check your phone, dump heat, or adjust your boots. Whatever your need - welcome to full five-finger freedom.

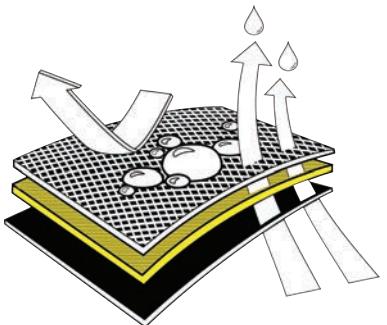

PASS POCKET

The Pass Pocket is a zippered pocket to stash your mountain pass in. Conveniently located at the wrist area of your glove, you can reach out - tap the RFID scanner - and cruise on through the lift line.

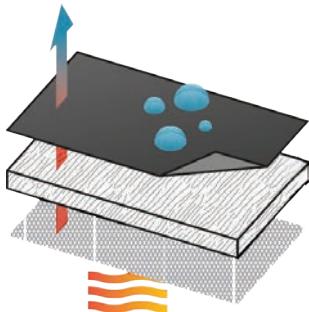

HEAT HOLDERS

Heat Holders are internal mesh pockets that position hand warmer packets directly over your hands, keeping them nice and toasty.

HIPORA®

Hipora® is a waterproof, breathable three-layer microporous silicon coating structured fabric system that is designed to keep external moisture out while allowing internal heat and sweat to escape.

PRIMALOFT®

Primaloft® is a microfiber thermal insulation system that mimics the warmth-providing properties of down. Its millions of air pockets trap and preserve heat while its treated fibers won't retain water.

NIKWAX®

NIKWAX WATERPROOFING

Nikwax Waterproofing Wax is a high performance waterproofer for leather mitts and gloves that restores water-repellency, maintains breathability, and reduces water absorption.

COLLABORATION:

LIQUID
DEATH

A partnership forged by death itself.

Dripping in gold and loaded with attitude, this collab fuses **Liquid Death's** thirst-murdering energy with **DEATHGRIP**'s functional handwear innovation. The *LIQUID DEATH GRIP* Ghoul Mitt delivers irreverent style, bold design, and the freedom to stay hydrated without ever taking your mitts off. Whether you're slashing powder or cracking a can, this one's built for the bold,

COLLABORATION:

AUTUMN
DEATHGRIP

Independently owned, rider-driven, and dedicated to keeping the culture in our hands.

These are the values that unite **AUTUMN** and **DEATHGRIP**. Style-forward and purpose-built, this collaboration stands as one of the most authentic, culture-rooted partnerships in snowboarding today. *Snowboarders for snowboarding, forever.*

COLLABORATION:

DEATHGRIP GLOVE CO.

Since day one, **SLUSH Magazine** has backed **DEATHGRIP** as both a media partner and creative collaborator. This season's plaid & herringbone design brings the heat – on snow, on the page, and in the feed. Whether you're flipping through the latest issue or scrolling for the freshest clips, you can do it all without ever taking off your *SLUSH Ghoul Mitts*.

ARTIST COLLABORATION:

MELODIE PERRAULT
DEATHGRIP GLOVE CO.

Melodie Perrault has become a cornerstone collaborator in the **DEATHGRIP** collection. From snakes to tigers – and now to Russian nesting dolls – her artwork brings a distinct energy and storytelling that's become a defining part of the brand. We're hyped to have Melo back again this season with another instant classic.

ARTIST COLLABORATION:

1910

DEATHGRIP

It was white. Then it was black. Now it's blood red.

The **1910 x DEATHGRIP GLOVE CO.** partnership enters its third – and bloodiest – year yet. Born from a shared love of shred, metal, and paint – and bound by brotherhood ever since.

RIDER COLORWAY:

Jamie Lynn

DEATHGRIP GLOVE CO.

Much like his method, **Jamie Lynn's** art is both iconic and woven into the fabric of snowboarding culture. We've grown up with it. We've celebrated it. And now, you can take it from the mountain to your mantel. Featuring Jamie's unmistakable blue palette and his signature mind's eye, these mitts are built to guide your journey into the higher consciousness of a heavy metal shred fantasy.

RIDER COLORWAY:

DEATHGRIP GLOVE CO.

Often called snowboarding's ultimate ATV, **Pat Moore** now brings that same all-terrain versatility to handwear with the *Werewolf Claw*. Part glove, part mitten – and entirely its own beast – the Claw delivers the warmth of a mitt with the dexterity of a glove. Built for riders who do it all – just like Pat.

RIDER COLORWAY:

DEATHGRIP team rider and artist ambassador **Estelle Pensiero** brings her signature style to the *Werewolf Mitt* this season. Loose illustration, gritty textures, and a satirical edge reflect her playful perspective and spontaneous approach - both on paper and on snow. The bold character and raw energy of her artwork mirrors the way she rides mountains - and we're hyped on both..

RIDER COLORWAY:

BLUXTON

DEATHGRIP

When **Scott Blum** and **Steffi Luxton** throw out an idea, you don't overthink it – you just say yes. Their vision? A shared signature *Ghoul Leather Mitt* that brings their worlds together – his grit, her style – wrapped in dark-brown leather that feels like a vintage bomber jacket and hits like a whiskey neat. **The Bluxton.**

ZOMBIE

Full leather. Fully waterproof. Fully loaded.
Our highest-performing glove, period.

W_26-27
