## SpaceGlass™

- USA 製航空宇宙コンポジット
- 2026 年モデルで設計を更新
- バタつきを排除
- 強度を向上
- スイングウェイトを軽減

## Recess 3D

- 精密 CNC 加工コア
- 強度を犠牲にせず軽量化
- 3D 角度でファイバーグラス剛性を向上

## S1 Pro Core

- 実績ある S1 コアをベースに構築
- コア全体に桐材を戦略的に配置し軽量化
- 5 年間保証

## Spectral Braid

- 特許取得済みファイバーテクノロジー
- トーション（ねじれ）と縦方向のフレックスを独立調整可能
- ノーズとテールはトーション剛性が高く安定性を確保
- バインディング間はトーションが柔らかく操作性を向上

## HyperWeave™

- ファイバーグラスの下層を K2 の新素材 HyperWeave™ に置換
- 100% カーボンファイバーのバイアックス織り
- フルカーボンでレスポンス力を大幅に向上
- ファイバーグラスと比較して大幅な軽量化

### ALCHEMIST

148, 151, 154, 157, 160, 160W, 163, 163W, 166

## \*Powered By H5

### H5 BOA® Key Features

#### • MULTI-DIRECTIONAL

- ライディング中でもダイヤル回転で締め付け・緩めを精密に調整可能

#### • COILER

- レースのたるみを素早く巻き取り、ブーツの着脱スピードを向上

#### • MIRRORED INTERFACE

- サイドマウント位置では前方向に回して締め付け
- タンマウント位置では内側に回して締め付け
- 緩める場合は逆方向に回転

#### • IMPACT PROTECTION

- バヨネットとカートリッジ構造により、強い衝撃時にダイヤルが安全に解除され、重大な損傷を防止

## [theory]

### H5 BOA® COILER with TX3 Lacing

- 高出力 H5 BOA® ダイヤル ×2
- 無限の調整性
- 精密なフィット

### F.O.R.M. WRAP

- "Fit Optimization for Ride and Mobility"

- 「Fit Optimization for Ride and Mobility」
- BOA® による新しいラップソリューションシステム
- 3 つの独立した可動クロージャーラップ
- 足の輪郭に沿って設計され、グローブのようなフィット感
- 前足部全体に均一なテンションをかけ、圧力ポイントを排除

### RUBBER TOE CAP

- 最大限の保護と耐久性
- 一日中快適

ENDO  
CONSTRUCTION  
**30**

- 変形なし、妥協なし
- 無限の耐久性
- 強力なエネルギー回収
- 構造的バックボーン

# TARO RS

¥143,000(税込)

Black/Brown

FEEL: 1 2 3 4 (5) 6 7 8 9 10

SIZES: 6, 6.5, 7, 7.5, 8, 8.5, 9, 9.5, 10, 10.5, 11, 12

## CONSTRUCTION FEATURES:

- F.O.R.M Wrap Solution - stands for "Fit Optimization for Ride and Mobility" ; a new wrap solution system powered by BOA®. A three panel design seamlessly creates a true custom fit to your foot and reduces pressure points - letting you ride harder and longer with less fatigue.
- H5 Coiler Zonal BOA® Fit System - Impact resistant, durable, and performance-driven, the H5 BOA® Dial ejects on severe impact and is easily re-inserted into the boot. One dial controls the upper shell lacing, and the other maintains the lower shell lacing.
- Full Grain Leather Upper with Flex Zone – Premium leather for a classic long and long-lasting durability gives this boot a smooth flex.
- Intuition™ Pro Foam 3D Wrap Liner with SpaceHeater™ - A premium and heat-moldable wrap liner built with Intuition® foam and lined with breathable heat-reflective SpaceHeater™ technology for superior warmth and comfort.
- Removable 3-Point Harness Liner Lacing - A removable liner harness that allows you to customize the stiffness and flex of the boot.
- Vibram® RollSole™ with Eco-Harshmellow™ - Premium Vibram® rubber outsole with our RollSole design to allow maximum medial mobility for tweaks drop knee turns, cushioned with vibration damping Harshmellow™ foam.
- Internal and External J – Bars with Cored Ankle Pockets
- S'Café™ Coffee Mesh
- Eco-Harshmellow™ Pro Insole
- 6+3 Last

# WAIVE

¥99,000(税込)

Black

FEEL: 1 2 3 4 5 6 7 8 9 10

SIZES: 5, 5.5, 6, 6.5, 7, 7.5, 8, 8.5, 9, 9.5, 10, 10.5, 11, 11.5, 12, 13

## CONSTRUCTION FEATURES:

- Traditional Lacing with Synthetic Lace Cover - Keep your feet warm and dry all day. The synthetic lace cover keeps snow from getting in-between the tongue and the shell of your snowboard boot, whether your in the skin track, the boot pack, and most importantly, when you're snowboarding
- Conda™ BOA® Liner Lacing - Proprietary liner lacing system that harnesses the power of BOA® to provide superior heel hold and support.
- Articulating Upper Cuff with HDR Premium Synthetics - Independent upper cuff articulation delivers a distortion-free flex while HDR synthetics improve overall shell durability.
- Full Grain Leather Upper with Endo™ 2.0 - Full grain leather provides exceptional durability and wear, while Endo™ 2.0 helps to retain flex and durability over the lifetime of the boot.
- Liner-Lite Snow Camp Ready Coating - An additional weather protective liner coating keeps your feet warm and dry in the harshest conditions.
- Rubber Reinforced Toe Cap
- Intuition™ Pro Foam 3D Liner with SpaceHeater™ - A premium and heat-moldable liner built with Intuition™ foam and lined with breathable heat-reflective SpaceHeater™ technology for superior warmth and comfort.
- Internal and External J – Bars with Cored Ankle Pockets
- S'Cafe™ Coffee Mesh
- Vibram® V5 Outsole with Eco-Harshmellow™ - Our premium rubber compound provides industry-leading durability and grip and is integrated with Harshmellow™ foam to absorb chatter and vibration.
- Eco-Harshmellow™ Pro Insole

Storm Cycle

**FEEL:** 1 2 3 4 5 6 7 8 (9) 10

**SIZES:** S, M, L

## CONSTRUCTION FEATURES:

- MODULE™ Chassis - Featured on all K2's newest bindings, the Module™ chassis is composed of a fiberglass-infused nylon and minimizes "dead" board flex zones directly underneath the binding. This allows the rider to feel the flex and response of the entire board length while providing maximum support, security, comfort, and vibration damping. Integrated with our all-new Sugarcane EVA Canted Harshmellow™ Footbed.
- FR1 Highback – Injected with a castor-bean based materials, the FR1 is equal parts eco and ergo. Freeride focused, asymmetrically shaped, and a stiffer flex for a more responsive feel.
- DD1 Ankle Strap – A dual-density ankle strap offers the best of both worlds, a softer inner material provides a seamless connection to your boot, and more rigid outer material provides with unrivaled response. Injected with a castor-bean based materials.
- BetterWrap Toe Strap – A dual-density toe strap designed to shape to the contour of any snowboard boot – manufactured out of castor-bean based materials.
- This Grips!™ Basepad – Featured exclusively on our Module™ Chassis bindings, we upgraded our This Grips!™ Basepad. By adding a BUNCH more rubber, we added multicolored, multi-density pods to the bottom of the basepad for increased damping. When compressed into the snowboard, they create an even tighter connection between the binding and your board – adding better control and reducing the chance of surprise disco-foot
- Sugarcane EVA Footbed with Eco-Harshmellow™ Pods – Updated and upgraded, we dialed in our sustainably sourced Sugarcane EVA Foam footbed, exclusive to our Module™ Chassis bindings. Optimized thickness helps dampen impact on the fattest and flattest landings, while new 3D texturing not only enhances the fit between boot to binding - but creates a "snow-phobic" effect to reduce snow build up.

SIZES: M, L, XL

## CONSTRUCTION FEATURES:

- GF Profusion™ Chassis - Integrated fiberglass materials combine with a classic shape to deliver a lightweight and rugged framework that is the go-to standard in the K2 binding collection.
- AT Nylon Highback with Gap Eraser Forward Lean Adjustment - Stiff, durable, and temperature resistant nylon provide maximum responsiveness and support. Customize your forward lean without the need for tools or a traditional forward lean block.
- Bender™ Ankle Strap - A low-profile, padless, and highly flexible injection-molded ankle strap built to optimize freestyle mobility.
- Perfect Fit™ 2.0 Toe Strap - Patented toe strap technology uses flexible hinges and lock levers to custom fit the toe strap to any snowboard boot silhouette.
- 3° Canted Footbed - 3° of inward canting in the footbed places the rider in a natural riding position.
- 100% Tool-Less Adjustment - Once mounted to your board, all strap and highback adjustments can be made on-the-fly without screwdrivers or other tools.
- Aluminum Ratchets
- Forward Lean Block

SIZES: S, M

## CONSTRUCTION FEATURES:

- **MODULE™ Chassis** - Featured on all K2's newest bindings, the Module™ chassis is composed of a fiberglass-infused nylon and minimizes "dead" board flex zones directly underneath the binding. This allows the rider to feel the flex and response of the entire board length while providing maximum support, security, comfort, and vibration damping. Integrated with our all-new Sugarcane EVA Canted Harshmellow™ Footbed.
- **Team Highback** - Injected with a castor-bean based materials, the Team Highback was designed with a softer flex to allow for full range of motion and a more relaxed feel.
